Practical, Efficient Cattle are our Livelihood.

We believe in the practical approach—our cattle are raised under the natural conditions as practiced by our customers. We stress sound-footed cattle with good udders and easy fleshing ability.

We collect, keep track and report any measurable trait, which includes calving ease, birth weight (actual scale weight), weaning weights, yearling weights at which time we also take scrotal measurements, we ultrasound the entire yearling crop (both bulls and heifers). The steers we retain full ownership to finish and we collect the actual carcass data on the hook. We feel as an industry we need to pay attention to what is under the hide. In addition we weigh cows at preg testing time in August.

New: RFI (Residual Feed Intake) Research

We are taking part in the CHA's ongoing RFI research project. We had 28 of the top performance Z bulls at the Olds RFI test a year ago. Currently we have 71 A bulls on test. Please feel free to check out the test results on our website.

We feel that it is important to pay attention to some of these economic traits such as carcass value and feed efficiency. But like any other trait we can not single trait select, we can't afford to loose out on fertility, longevity and performance. We still get paid by the pound, always look at the overall picture.

We would like to welcome you all to our ranch and invite you to come and see the whole program. We feel our Herefords are as well balanced as you will find anywhere, they will work in anyone's environment and management style. Give us a call and we will gladly advise and help you with your sight unseen purchase. **We stand behind our cattle and guarantee them in every respect.**

Last but not least we would like to specially thank all our Buyers and Bidders over the last year for their great support and friendship. It is people like you that makes it a joy to be in the Hereford Family.

For more information on our cattle and updated listings, please check our web site.
