66 Coming Two Year Old Bulls by Private Treaty

Big Group of Coming Yearling Bulls

Semen Of Our Top Herd Bulls

70 Bred Heifers

Welcome

To our Winter 2022-23 Bull & Heifer Offering

Our Families would like to welcome you to our 2022-2023 Bull & Heifer Offering.

As we come close to the end of 2022 we reflect back on another year with its challenges. We had no moisture to speak of in our part of the country until mid June. Then we got 4 inches of rain (the first good general rain since the flood of 2013) and it slowly greened up, giving us some decent grazing till August. At which time we resorted to feeding some hay for a few weeks until the regrowth on our irrigated silage ground allowed for fall grazing. One more year that gives us the message that **Feed Efficiency** is one of the most important things in the livestock industry.

All our bulls and heifers on offer were tested for RFI in our GrowSafe Feed Efficiency Testing Facility. Out of the 90 J-Bulls on offer, 70 have an above average GrowSafe RFID EPD, this is across all cattle tested within the GrowSafe database and across all breeds. You will also find 25 low birth weight bulls that will suit your heifer needs.

We are a fact and common sense driven operation keeping track of every measurable trait. As market research shows Hereford calves are still taking a bit of a hit at auction, main reason for that is the Hereford cattle still struggle to yield at the top, therefore the packers and feedlot industry is not willing to pay top prices. We encourage you to look at carcass numbers and try to select bulls that will improve the yield, as in Rib Eye Size and marbling, in your herd.

We would like to take this opportunity to **Thank all our Customers and Friends from the bottom of our hearts for your support and business**, we really appreciate your friendships, it encourages us to strive to produce a **better Hereford**.

Please remember we do stand behind our cattle and guarantee them in every respect.

In closing we wish you all a very **Merry Christmas and a prosperous Happy New Year.**

Lilybrook Herefords Inc.

Andy & Margaret Schuepbach with Ruth, Daniel, and Clint & Michelle Unsworth

Please check out our website for more info and updates.

The **Canadian Hereford Association** is pleased to present this sale catalogue on behalf of **Lilybrook Herefords Inc.**

LBH is committed to raising the best Feed Efficient Herefords possible.

We have been promoting our Herefords as **Practical** and **Efficient**. We are committed to raising the most feed efficient cattle we possibly can. We collect, keep track and report any measurable trait and stress sound-footed cattle with good udders and fleshing ability.

In the fall of 2018 we took **Feed Efficiency testing** to a higher level and installed our own on Ranch GrowSafe feed intake testing facility. We are capable of testing 80 Bulls or 100 Heifers at a time and tested all our Bulls and Heifers for Residual Feed Intake.

Lilybrook's ongoing testing for RFI (Residual Feed Intake)

Over the years we have been taking part in the CHA's RFI research project and fall of 2018 we installed our own GrowSafe Feed testing facility here at the Ranch. Combined we have tested 1104 bulls and 792 heifers so far.

We have chosen to show you the Results of testing by posting the Individual GrowSafe RFI EPD's provided to us by GrowSafe Systems. The EPD shows in **Red** the more efficient bulls, as in feed intake is less than expected. Looking at LBH 200J he is more efficient at **-0.8527** then LBH 451J at **-0.3441** and he way outperformed LBH 390J at 0.3776.

We would like to invite you to look at the full RFI test results on our website. Please don't hesitate to contact us for answers and more info.

What does RFI stand for?

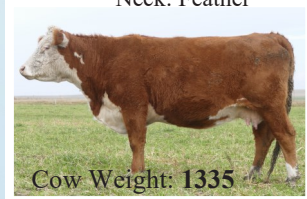

It stands for Residual Feed Intake. Actually RFI is a measure of the variation in feed intake that remains after the requirements for maintenance and growth have been met. **Efficient animals eat less than expected** for their size and growth and have a **negative or low RFI**, while **inefficient animals eat more than expected** for their size and growth and have a **positive or high RFI**. RFI has a good heritability at 0.36 (36%) and little influence or correlation with other traits. Research has shown that selecting for RFI may result in as much as a 9-10% reduction in cowherd maintenance costs, a 10-12% reduction in feed intake, a 25-30% decrease in methane emissions and a 15-20% decrease in manure production. RFI results are achieved through Feed Efficiency Testing, in our case in our GrowSafe Feed Efficiency testing facility.

Performance Data for K-Bull Calves

The 2022 Bull Calves are weaned and there are Herd Bull prospects!

All weights are in Pounds (lb), (1 lb = 0.454 kg).

The bulls with **Bold printed birth weights** we feel safe to be used on heifers!

B.D = Birth Date, **B.W.** = Actual Birth Weight, **WPDA** = Weight Per Day of Age, **205D** = Adjusted 205 Day Weight

BETTER YOUR BEEF HEREFORD

The Lilybrook Advantage

Lilybrook Herefords has been **collecting carcass ultrasound data for over 20 years and actual carcass data on all our steers for 15 years now.** We have also been involved with Feed Efficiency testing for 11 years.

We **invite you to take advantage of our data,** we feel we have come a long ways selecting for carcass traits. We've been

trying to Better your Beef and Herefords long before it became our slogan.

Having said that we still have a ways to go and we need to eliminate the poor ones that give us a negative image as a breed.

Please have a look at a couple sets of steers in our group of 144 steers hanging at the packing plant—88 steers gave us a premium, 14 were at base price and we sadly had 42 with some deductions. 92 steers had AAA marbling and 52 steers had AA marbling.

Now to our table below, two sets of comparable weight steers killed on July 27, 2022 with a base price of \$2.886 per pound rail weight. **LBH 274J & 352J are the kind that we do not want to see with 15 and 16 cents deductions,** why you ask?

Look at the Back Fat, REA and the Yield results—high Back Fat and poor REA results in a poor yield of 5.0 and 5.1, thus the deductions. Looking at **LBH 310J & 403J they have decent Back Fat and big REA resulting in low yield grade at 2.7 and 2.8, thus the premiums.** Now the two bad ones are the poorest we had, with the next poorest at 8 cents deductions, but it shows the extremes on those steers. There is a difference in price per pound of 24 cents or **\$157.44 deductions compared to a \$70.56 premium comes to \$228.00 difference per carcass.**

Wonder which one the feedlot & packer guy remembers, I can guarantee it won't be the premium one—we simply need to improve our carcass in Herefords.

Tattoo	Rail wgt.	Fat in Inches	REA in Inches	Marbling Score	Grade	Yield	Premium/Deductions	\$ Loss/Gain
LBH 310J	949	0.56	16.9	463	AAA	2.7	7 cents	66.43
LBH 274J	984	1.00	13.3	328	AAA	5.1	-16 cents	-157.44
LBH 403J	882	0.48	15.1	507	AAA	2.8	8 cents	70.56
LBH 352J	873	0.92	11.6	480	AAA	5.0	-15 cents	-130.95

Lilybrook Herefords' steer close-out data.

Finished at Kasko Feedyards.

Summer Highlight—Mr. & Mrs. Unsworth

July 20, 1930–December 13, 2022

Eulogy—written by Granddaughter Michelle

Hans was born July 20th 1930 in Zurich Switzerland. He was the eldest of five to parents Hans & Lina. He was raised in Oetwil a/See, Switzerland, spending his early years living at the psychiatric clinic his parents worked at. When his family moved to a farmstead he was able to open his eyes and learn about agriculture. Hans attended agricultural college in Switzerland. He spent his mandatory time in the army, where he was a dead shot with a gun, later he was also able to return as a corporal to train the new recruits in shooting. He then went on to work and see the world - working in different parts of Switzerland and also in Denmark.

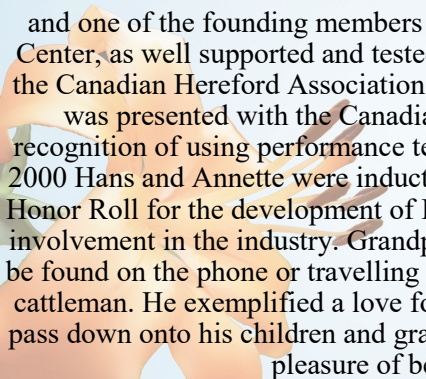

In 1954 he made the long journey to Canada, he started out in British Columbia working at a milk farm. It was hard and difficult work, he was eventually able to leave there and worked a variety of jobs including at a saw mill, dairy farms and a paper factory. These jobs didn't come without their struggles of having to recover from a severe hip injury after an accident and living in very remote areas of BC. In 1957 he returned to Switzerland, on this trip he returned to Denmark to visit his old employer, it was also here that he got the "bug for the wide open spaces" seeing the potential of farming not just on the hill sides. Hans was made aware and offered an opportunity to return to Canada to manage a newly purchased ranch near Claresholm for a Swiss lawyer. He made the journey back in the thick of winter February 1958 with good friends Florian and Luise Eberl to start this new adventure. Grandpa had found the perfect home in Claresholm, he could still see the mountains and was in close driving distance but also had the wide open prairie to work with.

In 1960 on return to Switzerland for his brothers wedding he met Annette Suter. Annette returned to Canada and together on June 25 1960 they were married in this same church we stand today. Their strong and steady relationship lead to 62 years of a long and loving marriage. They also went on to have and raise their four children together – Elisabeth, Peter, Margaret and Marianne.

After 10 years of managing Dr. Ammann's Hereford Ranch with the Eberls they were able to purchase land nearby. It was at this time that Hans had the opportunity to transition from managing to renting from the Dr. This was the beginning of the very successful purebred Hereford operation of Ulrich Hereford Ranch. During this time Hans also had asked his brother George to come to Canada and help with his family.

Not only in the Hereford industry but Hans was also well known and made a lasting effect within other cattle breeds. He was a member of the Simmental Breeders and involved with assisting his father back in Switzerland on importing many animals into Canada. He was also instrumental on importing the first Braunvieh bull to Canada in approx. 100 years.

As Grandpa was described he held the family trait of being a, "cow fanatic." especially within the Hereford breed he became well known and accomplished. He attended the Calgary Bull Sale with a string of bulls for 30+ years, he travelled around the country and nation to Hereford events, such as the World Hereford Conference in Uruguay and New Zealand. He was a forward thinker

and one of the founding members of the Alberta Hereford Association Test Center, as well supported and tested within many other centers. He served on the Canadian Hereford Association Board of Directors for 4 years. In 1988 he was presented with the Canadian Beef Cattle Performance Award for recognition of using performance testing for the improvement of the breed. In 2000 Hans and Annette were inducted into the Canadian Hereford Association Honor Roll for the development of Hereford cattle, promotion of the breed and involvement in the industry. Grandpa was a proven herdsman who could often be found on the phone or travelling around the countryside visiting with fellow cattleman. He exemplified a love for agriculture and cattle that he was able to pass down onto his children and grandchildren, and really anyone who had the pleasure of being in his company.

When he was in his 40s and 50s Hans suffered from a few heart attacks, essentially resulting in a quadruple bypass operation. It was a blessing that he was able to remain so healthy and active for another 40 + years. In early 2000s the ranch split between his son and son-in-law, but he continued to be an integral part of both operations. Grandpa continued into his “retirement” years doing what he loved – being an essential part of day to day operations. Every Wednesday for over 40 years he drove to Lethbridge to attend the sale at Balog Auction Mart, he kept a strong tab on what was happening within the market, visited with many friends along the way, and of course wasn’t afraid to do a little marketing. He also continued to be a dead shot with his .22, no gopher on the place ever had a chance.

I have had the pleasure of gathering my Grandpas family and friends thoughts on the man he was to each of us over the last week. Grandpa was a true family man – from a young age he was always looking out and caring for his siblings, and carried that on through his life. He made family a priority – the first Christmas Grandpa wasn’t at home anymore he made sure to send a letter home to his parents and siblings, with the instructions on Christmas Eve at 8 PM that everyone go outside and look at the North star, representing that they were looking into each others eyes and together despite the distance. He assisted in helping his brother and sister get settled in Canada when they each immigrated, and was very happy to have them here with him. Every summer Grandpa and Grandma would take a trip out to Creston BC with all their kids to buy fruit, but he always ensured this was a fun holiday as well. He was always taking his kids and then later grandchildren to check cows with him, both for company but also teaching and mentoring along the way. Grandpa never missed one of our 4-H Achievement Days, there to cheer us on and give support. He was always there for his loved ones.

Grandpa was a straight shooter – you had better be prepared for an honest answer or comment. Ruth and I got to experience this firsthand, he never liked our painted fingernails and never failed to tell us. But with this he also had full respect for everyone to have their own opinion, and was always willing to have a discussion about it. He taught us to always be true to ourselves.

He had a strong Christian faith and exemplified that in multiple areas of his life – Sundays were a day of rest to attend church and then spend time with his family. He always prayed before a meal, and every Christmas he would read the

Christmas story from the bible before we opened presents.

Grandpa loved to eat, especially Grandma's cooking. He never turned down a chocolate or dessert. And you could guarantee if he was blowing out candles there wouldn't be any still lit when he was done. It was always guaranteed that every lunch was followed with a short nap on the couch.

He was a hard worker and could multi-task – was able to talk on the phone and write things down all while also being able to give someone instructions.

Grandpa had that dry wit about himself, and was always looking for the opportunity to make you smile. He also had the most contagious smile, especially in these later years with that toothless grin.

Grandpa was a true gentleman, genuine, a patriarch of his family and the Hereford industry, a mentor, and a friend.

To our husband, brother, dad, grandpa, and friend – you have made a lasting impact on our lives. We will miss you and we love you, but know that your legacy lives on in each and everyone of us.
